

Peace of mind with PaySpace: security guaranteed

At PaySpace, we understand the importance of data security, especially when it comes to payroll processing. That's why we take a multi-layered approach to ensure your information is always protected.

Rock-solid security foundations:

ISO 27001 certification: We adhere to the rigorous ISO 27001 international standard for information security management systems. This ensures systematic and comprehensive management of information security risks.

GDPR and POPIA compliance: We comply with both the General Data Protection Regulation (GDPR) and the Protection of Personal Information Act (POPIA), guaranteeing the privacy and protection of your data.

Cloud Room: your secure collaboration portal

We go beyond compliance with innovative tools like Cloud Room, a secure portal designed specifically for outsourcing environments and payroll processes. Cloud Room eliminates the risks associated with insecure email exchanges by providing a dedicated space for:

Secure file sharing: Upload and download sensitive documents with confidence. No more worries about unauthorised access.

Enhanced tracking and auditability: Always know the status of your files and easily track their history. Information is centrally located for effortless retrieval whenever needed.

Streamlined workflows: Define custom process steps with reminders and notifications for both you and your vendors. This ensures clear communication and accountability.

Security governance:

Cloud Room aligns perfectly with our commitment to security governance. It seamlessly integrates with our ISO 27001 standards, guaranteeing a secure platform for data transmission between you and PaySpace.
